

Complain # 34017 Investigation

LOCATION: 608 McGavock Pike, Nashville TN

PERMIT(S): NRS13.227 - Tarun Surti – Permittee

DATE: September 12, 2014

NRS13.227 and NRS13.227A were issued January 2, 2014 to Mr. Surti for the construction of a minor road crossing and the minor fill of a wetland, respectively. On September 09, 2014 Dale Binder of Metro Water Services notified the division that culvert installation was underway and it appeared to be in violation of NRS13.227. I investigated this complaint on September 12, 2014. The following photographs document site conditions on that date.

Mark Jordan – September 16, 2014
